Our elegant custom fabricated Mini Houses provide for a contemporary multifunctional living space. They are designed to be used as a standalone or clustered fully self-sufficient off-grid solution. We are using high quality products which are long lasting and eco-friendly. Mini Houses are pre-manufactured and professionally assembled.

Possible uses:

Mini Home: Sustainable lock up and go minimalistic living space.

Additional Apartment: Independent small house to accommodate regular visitors or permanent staying family members.

Guest Cottage: Rentable unit/units offer great return of investment in tourism.

Multifunctional Studio: Custom designed space with endless possibilities i.e.; office, pool room, consulting room, yoga/art studio, workshop, play room etc.

Setting up your house & duration:

Our units are pre-manufactured according to our standards of footprint and quality. Internal walls & windows layout is designed to accommodate your needs. It takes from deposit to finishing apx 3 months. Site preparation can be arranged on request. Duration of installation depends on the situation on site, 3 weeks max.

Flexibility of design:

There is a choice of 3 footprint sizes on which the client implements his vision and layout. Standard size: 4x10m. Extra width: 5x10m and Half size: 4x5m. All accessories like power and water points are customisable to suit your needs. Ask for our list of options. Should you wish to design your house from scratch, this can be arranged as well.

Entry level MINI HOUSE – INTRODUCTION price:

Our entry level offers the best value for money and is ideal for the DIY person to do their own finishes inside and outside. It also offers the possibility to have a shelter that can be finished over time as the budget and time allows.

Entry level starts from ZAR 9 600 per sqm incl. delivery within 25km radius ex yard Baardskeedersbos.
